CHECKLIST

Desk Cable Management Checklist

- [ ] Unplug all equipment and lay cables flat to see connections
- [ ] Group cables by destination into bundles
- [ ] Fix tray or clips under the desk along the cable path
- [ ] Thread cables through, leaving slack near each device
- [ ] Bundle vertical runs with a sleeve or wrap
- [ ] Label cables at both ends with device names
- [ ] Check that all cables reach without stretching
- [ ] Review and clean the setup every few months
