CHECKLIST

# Desk Stability Checklist

- [ ] Rock the desk and identify which leg lifts
- [ ] Slide paper under each leg to check contact
- [ ] Tighten all bolts and fasteners around the frame
- [ ] Add felt pads or adjustable feet to level short legs
- [ ] Fit corner braces or cross-bracing to reinforce loose joints
- [ ] Redistribute weight by moving heavy equipment to the centre
- [ ] Place a hardboard sheet under the desk if on thick carpet
- [ ] Retest stability after each adjustment
